

How JABA Donors Helped Frank and Mary Thomesson

When a rare disease slowly began stealing her husband, Mary Thomesson's world fell in. She watched as her loving and brilliant Frank became in need of constant care. A nursing home loomed as the only option. Then, Mary learned about JABA's Adult Day Care Center. For over two years, until his death, the JABA day community provided Frank with the care he needed and provided uplifting support for Mary in her role as caregiver. Mary says that she can't imagine what her life would have been like the past couple of years without the support and loving care.
